

Greenlee 22

SOLID-CENTER AUGER BITS

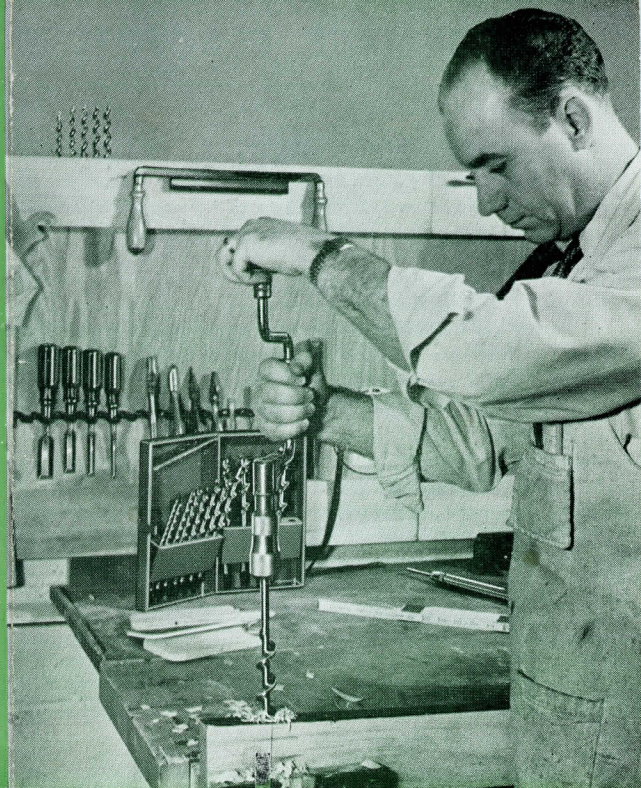

Every Greenlee 22 Auger Bit is made with utmost care to assure free, easy boring and fast chip clearance. Solid-Center design for extra strength, smooth operation. "Induction Heat-Treated" for uniformity, dependability and long life. Accurately sized, perfect cutting edges for fast, clean action. "Plastic Sealed" to reach you factory-sharp. Sizes: 4/16" to 24/16".

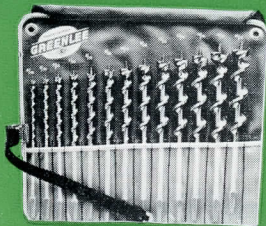

GREENLEE TOOLS FOR CRAFTSMEN BY CRAFTSMEN

GREENLEE tools for the woodworker are produced by skilled craftsmen with years upon years of experience. Best grades of materials, special machinery, and expert workmanship combine here to meet your exacting needs. And this guarantee is back of your GREENLEE tools: "We guarantee every tool bearing the GREENLEE name to be free from imperfections of material or workmanship." In addition to tools described here, Greenlee Tool Co. makes a line of mortising, boring and routing tools for machine use, and tools for electricians, plumbers and construction workers . . . including Hydraulic Pipe Benders, Hydraulic Pipe Pushers, Tube Benders, Knockout Punches, Joist Borers, Cable Pullers.

GREENLEE TOOL CO., ROCKFORD, ILLINOIS

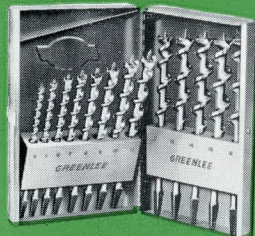

**HIGH QUALITY
HAND TOOLS
FOR CRAFTSMEN**

AUGER BIT SETS IN PLASTIC ROLLS

Greenlee 22 Auger Bits in rolls of durable green plastic with leather-like grain. Transparent pockets, flannel flap. Grommets for hanging, strong straps and buckles. Available in sets of 6, 8, 9 and 13 bits.

AUGER BIT SETS IN STEEL BOXES

13 Greenlee 22 Auger Bits (sizes 4/16" to 16/16") in sturdy steel box for workbench or on-the-job use. Knockout holes at top for hanging. Bit racks swing forward for easy access. Painted green.

AUGER BIT BENCH SET

Handy workshop unit... complete with 13 Greenlee 22 Solid-Center Auger Bits in 4/16" to 16/16" sizes. Steel panel has sturdy metal easel and two knockout holes at top for hanging. Attractive green and yellow color combination.

COUNTERSINKS, SCREW DRIVER BITS

**NO. 701
BRACE COUNTERSINK**

For wood and soft metals. Will countersink up to 5/8". Over-all length, 4 1/2".

**NO. 723
SCREW DRIVER BIT**

Fine grade steel... heat-treated for long life. Four sizes from 1/4" to 1/2".

GREENLEE BITS AND DRILLS

NOS. 3 & 4 PLAIN EXPANSIVE

BITS For fast, clean cutting. Equipped with wide, open throat for positive chip clearance and uninterrupted boring. No. 3 bores 1/2" to 1-1/2" holes and No. 4, 7/8" to 3". For boring holes up to 4", an extra cutter can be supplied for the No. 4.

NOS. 5 & 6 SETFAST EXPANSIVE

BITS Quick-adjusting locking feature... cutter cannot creep. Quarter turn with screw driver unlocks adjusting barrel, which is easily turned with thumb for rapidly setting cutter to size. No. 5 bores 5/8" to 1-3/4" holes, and No. 6, 7/8" to 3". Extra-length cutter available for No. 6 to cut holes up to 4".

NO. 16 UNISPUR ELECTRICIANS' AUGER BIT

Smooth-boring, fast double-twist auger bit with long twist and single-cutter head. Deeply cut single screw point bores 1" in ten turns. Sizes range from 4/16" to 20/16".

NO. 21 SOLID-CENTER ELECTRICIANS' AUGER BIT

Features a solid center to provide full strength for heavy use and positive chip clearance. 5-1/2" twist and 10" over-all length. Single screw point feeds 10 turns to the inch. Sizes: 10/16", 11/16", 12/16".

NO. 64 SHIP AUGER CAR BIT

For heavy boring in shipyard and large timber work. Strong, free-clearing, easy-cutting. 17" to 18" over-all length. Sizes range from 4/16" to 24/32".

NOS. 3 & 4 NOS. 5 & 6 NO. 16 NO. 21 NO. 54 NO. 56 NO. 57 NO. 48

NO. 56 SOLID-CENTER CAR BIT

Made with 12" twist and 18" over-all length to provide greater range than an ordinary-length auger bit. Excellent for general wood work. Sizes range from 6/16" to 20/16".

NO. 57 SINGLE-SPUR CAR BIT

Designed for pole, bridge, dock and other heavy wood construction. Made of tough alloy and heat-

treated. In sizes 6/16" to 17/16" with 12" twist and sizes 9/16" to 17/16" with 18" and 24" twist.

NO. 48 BELL HANGERS' DRILL

Of high-grade alloy steel, heat-treated for extra strength, so will not be damaged if metal is hit during drilling. Over-all length 12", 18", 24"; twist 2-1/4" to 4-3/4". Sizes range from 6/32" to 24/32". Has hole in twist for pulling wire.

NO. 900 BIT EXTENSION

For boring deep holes or reaching inaccessible places. Strong enough to drive a bit up to 1" diameter, yet small enough to follow a 5/8" size. Positive lock for absolute grip on shank. Four lengths: 15", 18", 21", 24". Also available as No. 925 which is made extra heavy to drive tools up to 2" size. 18" and 24" lengths.

No. 900

GREENLEE CHISELS AND GOUGES

NO. 403 TANG BUTT CHISEL A lightweight, well-balanced chisel with a thin, bevel-edged blade of high-carbon tool steel that retains a keen edge over long periods. Blade is carefully tempered for hard usage . . . polished over-all. Attractive handle of durable green plastic with contrasting yellow band at tang end. Blade lengths vary from 2-1/4" to 2-3/4" . . . over-all lengths from 7-5/8" to 8-3/4". Nine sizes from 1/4" to 2".

NO. 407 TANG BUTT CHISEL WITH METAL CAP

Similar to No. 403, but handle has protective metal cap to withstand severe hammering and pounding. Carefully heat-treated from cutting edge to handle. Nine sizes from 1/4" to 2".

NO. 200 SOCKET BUTT CHISELS Bevel-edged, thin blade of high-carbon steel provides long-lasting, fine-cutting edges. Short handle gives perfect balance. Blade and socket made in one piece for maximum strength. Blade length 2-3/4", over-all length 9" to 10" according to size. Leather-tipped hickory handle. Nine sizes from 1/4" to 2".

NO. 203 SOCKET BUTT CHISELS Same as No. 200 above, but with Hard-Wear handle of durable green plastic. Nine sizes from 1/4" to 2".

NO. 220 SHORT SOCKET FIRMER CHISELS For all types of woodworking. Bevel-edged blade of finest quality high-carbon steel. Blade length 4-1/2", over-all length 11-1/2" to 12-1/2" according to size. Leather-tipped hickory handle. Nine sizes from 1/4" to 2".

NO. 223 SHORT SOCKET FIRMER CHISELS Same as No. 220 above, but with Hard-Wear handle of durable green plastic. Nine sizes from 1/4" to 2".

CHISEL SETS IN PLASTIC ROLLS

Available in sets of 6 and 9 chisels (Nos. 200, 203, 220, 223) or 6 Nos. 403 or 407. Rolls have individual pockets with flannel flaps to protect the tools. Securely closed with strap and buckle.

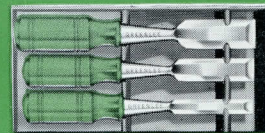

CHISEL SETS IN WOOD CASES

Handsome wood cases with sets of 4 chisels (Nos. 200, 203, 403 or 407). Inside of case carefully formed with individual compartments so that each chisel fits snugly in place. Chisel sizes: 1/4", 1/2", 3/4" and 1".

CHISEL SETS IN FIBERBOARD BOXES

Available in sets of 3 chisels (Nos. 200, 203, 403 or 407). Sturdy box with individual holders for chisels and rigid Metal-Edge construction gives good protection to tools. Chisel sizes: 1/2", 3/4" and 1".

GREENLEE ELECTRIC-DRILL BITS

NO. 33 FLAT POWER BIT—Flat type with 1/4" shank for electric drills with chuck capacity from 1/4" to 1/2". Will bore at any angle in any wood. Six sizes 3/8", 1/2", 5/8", 3/4", 7/8", 1". Available individually or as set of six in twin window display box.

NO. 27-P ELECTRIC-DRILL BIT—Solid-Center Electric-Drill Bits for use in 1/4" electric drills to bore 1/2" and smaller holes in soft or hard wood. No pressure required to bore smoothly, quickly. Screw point feeds 30 turns to the inch. Sizes included in set: 4/16", 5/16", 6/16", 7/16", 8/16". Twist is 3" long, shank is 1/4" by 1" in length. Set packaged in sturdy Metal-Edge box.

NO. 28-PT SINGLE-TWIST ELECTRIC-DRILL BIT—Available in 13 sizes from 4/16" to 16/16" with 3-3/8" to 4-3/4" twist and over-all length approximately 5" to 7". Bits up through 5/8" size have 1/4" shank, all other sizes have 23/64" shank.

NO. 53-PT SOLID-CENTER ELECTRIC-DRILL BIT—Available in 11 sizes from 6/16" to 16/16" with 8" twist and over-all length approximately 10" to 10-1/2". Sizes 8/16" and smaller have 1/4" shank, 9/16" size has 9/32" shank, 10/16" size has 5/16" shank, and sizes 11/16" and above have 23/64" shanks.

NO. 56-PT SOLID-CENTER ELECTRIC-DRILL BIT—Available in 11 sizes from 6/16" through 16/16" with 12" twist and over-all length of approximately 16". Bits in sizes 6/16", 7/16", and 8/16" have 1/4" shanks; 9/16" bit has 9/32" shank, 10/16" bit has 5/16" shank, and bits in 11/16" size and larger have 23/64" shanks.

NO. 64-PT SHIP AUGER ELECTRIC-DRILL BITS—17 sizes from 5/16" through 33/16". 12" and 18" twist, depending upon size. Shanks same as 56PT, except 1/2" for 18/16" and larger.

GREENLEE SPIRAL SCREW DRIVERS

Enclosed Spiral

Open Spiral

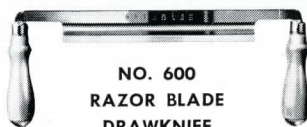

GREENLEE Spiral Screw Drivers are available in two types as shown above. Fully enclosed model, top, prevents pinched fingers and keeps spiral free of dirt. Handle is sturdy green plastic. Inside and outside sleeves and nose are of stainless steel. Interior parts, except spiral, of high strength aluminum and phosphor bronze. Small and medium sizes. Open-spiral model of similar construction. Small, medium, and large sizes.

GREENLEE AUTOMATIC PUSH DRILLS

All working parts completely enclosed to prevent entry of dirt and grit, insuring long life, easy operation. Drive nut of long-wearing phosphor bronze. Hardwood or plastic handle serves as magazine for regular equipment of 8 drill points.

DRAWKNIVES

NO. 600
RAZOR BLADE
DRAWKNIFE

Light blade with concave section between cutting bevel and rib. Sturdy, rigid blade. Hardwood handles. Four sizes from 8" to 12".

TURNING TOOLS

Constructed of tough alloy steel. Polished maple handles reinforced with nickel-plated steel ferrules. Available in various sizes. Set of 6 or 8 Short Turning Tools packed in cardboard display box. More complete sets of 11 or 12 tools can also be put up in ordinary wood or paper boxes.
